

Proposals to the halls

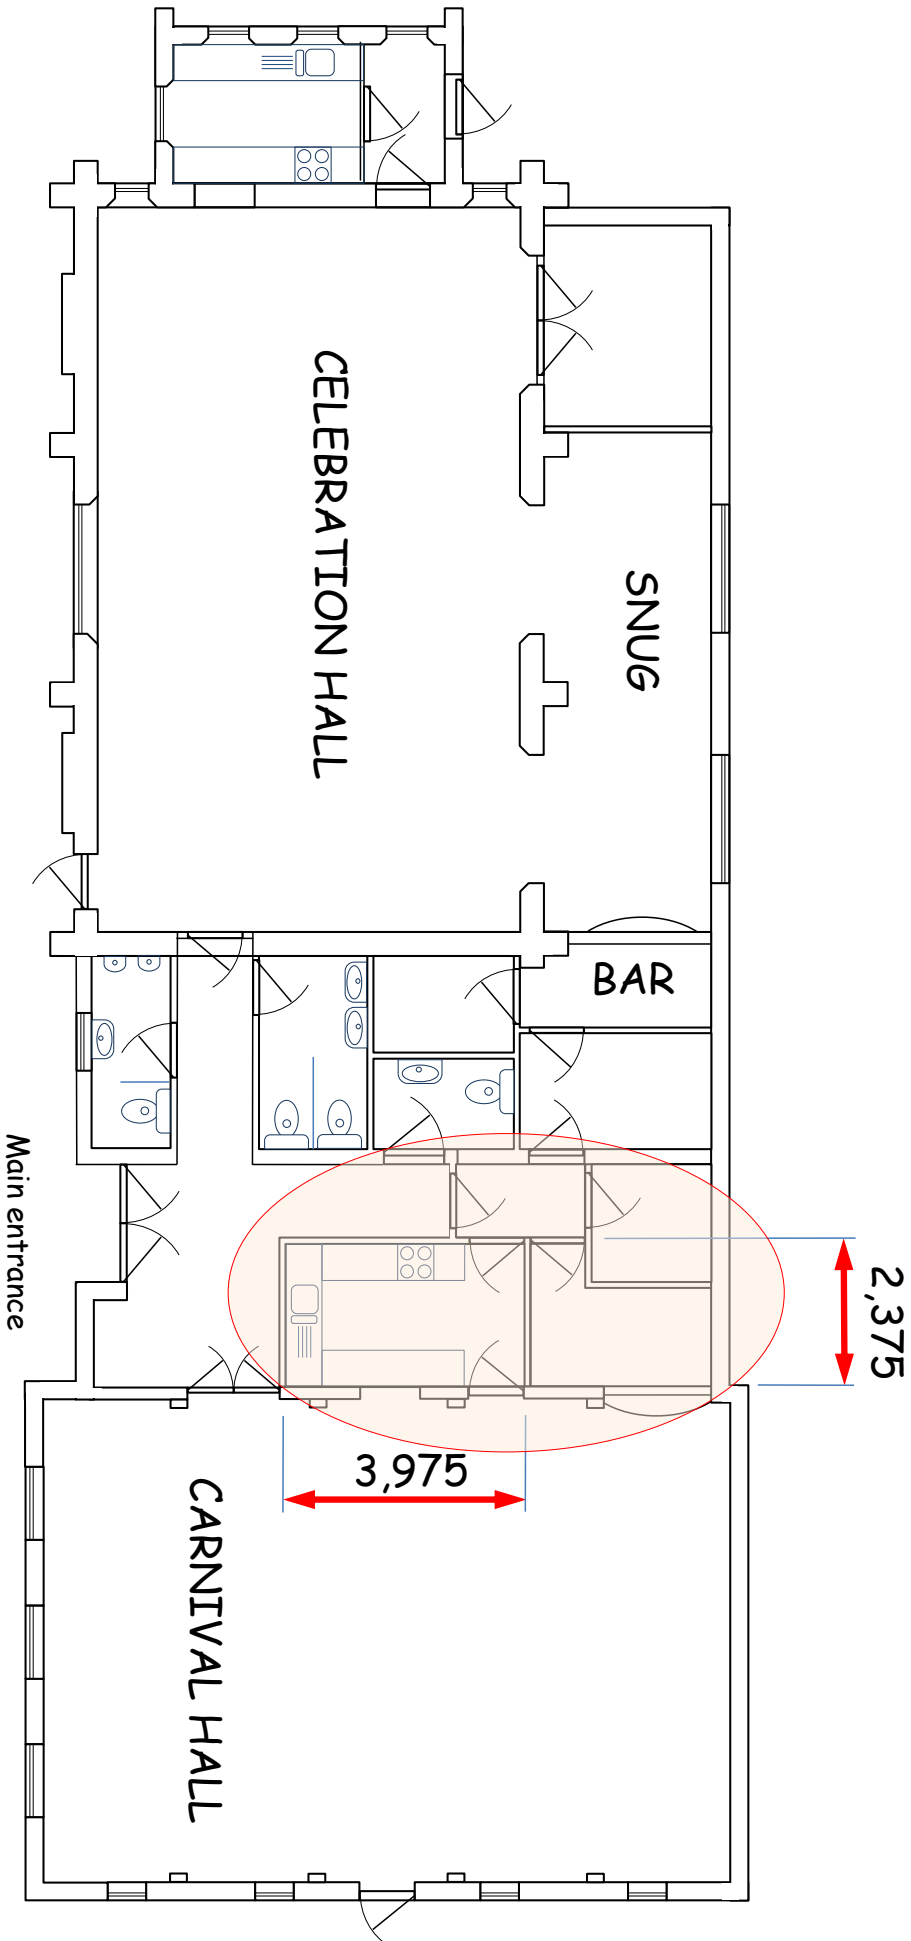

Over the next few years we are raising additional £30,000 to enable us to enlarge and replace the kitchen for the Carnival Suite (the rear or new hall)

This work will involve extending the kitchen into the Carnival hall's bar and the storeroom behind it. This will allow us to double the size of the kitchen. This will leave us with the one bar in the sung off the Celebration hall.

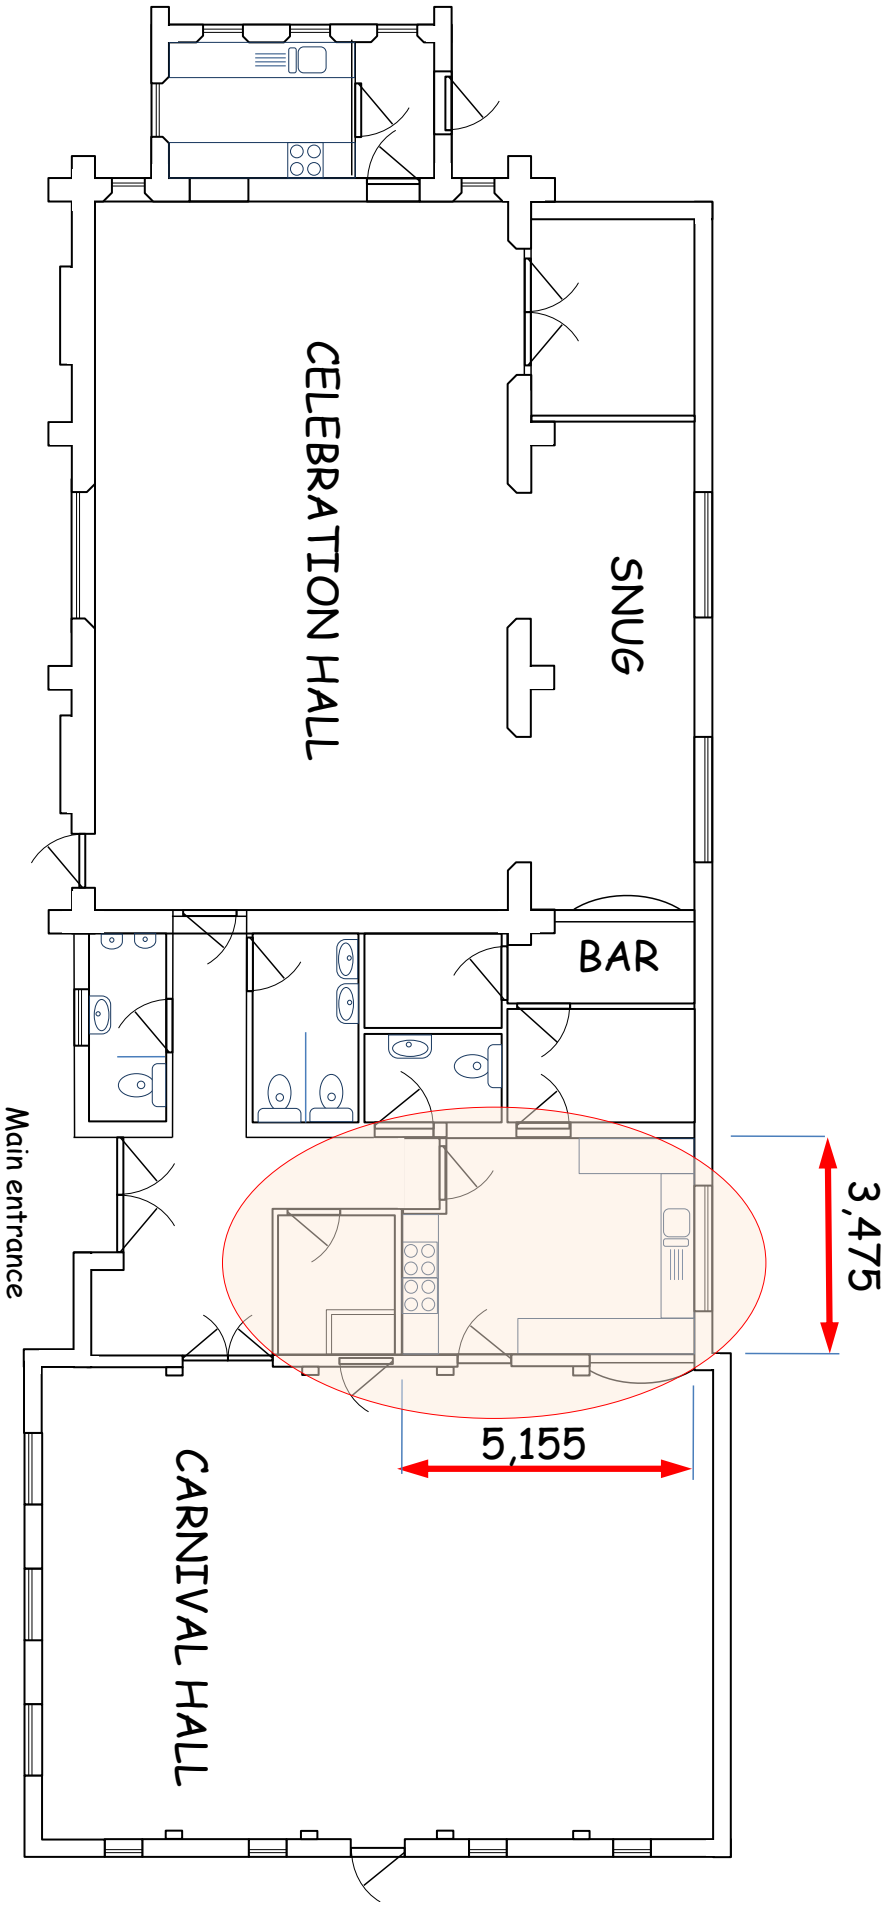

Attached are some preliminary plans to help understand what we have in mind.

This is a long term project that has only just been started with 3-5 years of fundraising.
